

# RISING FRESHMEN APPLY ONLINE

[www.My4CAcademy.org](http://www.My4CAcademy.org)

**Professional Skills**

**Work-based Learning**

**Dual-enrollment Opportunity**

**Industry Certifications**

## **Innovation through industry-focused education.**

The 4C Academy is a place where learning is different. In addition to traditional academic and career courses, our program focuses heavily on the professional and soft skills that prepare students for both college and career.

### **Our Mission**

The mission of the Commodore Conyers College & Career Academy is to produce college and career ready graduates with relevant skills, education, and exceptional work ethic who can compete and succeed in the real world.

### **Professional & Soft Skills Program**

Critical thinking, teamwork, and communication skills are just a few of the lessons we incorporate into our school-wide initiatives.

### **Career Pathways- 9th and 10th grade**

Incoming freshmen choose one of our high-demand, career pathways.

- Agri-Business – Learn modern agriculture, technology and Ag-business
- Audio Video Technology – Learn studio production, video editing, lighting, and directing
- Construction – Learn skills in woodworking, carpentry, plumbing, and masonry
- Aviation – Explore aviation through maintenance, pilot training and drones
- Drafting & Design – Learn architectural design, computer drawing, and 3D printing
- Engineering – Explore civil, mechanical and industrial engineering
- Graphic Design- Learn graphic design, multimedia art, and print production
- Health Informatics – Learn the business side of healthcare records, insurance, and billing
- Healthcare Science – Learn about patient care, nursing, nurse aide and health
- Information Technology – Learn to program, create websites and network computers
- Marketing / Entrepreneurship – Learn about business ownership and brand management
- Mechatronics – Learn about electrical systems, solving programs and basic programming
- Teaching As A Profession – Learn about becoming a teacher and childhood development

### **Industry Certifications & Work-based Learning- 11th and 12 grade**

Once a student successfully completes a career pathway, they may choose to continue their studies for industry certifications, followed by internship opportunities.

### **Dual Enrollment- 11th and 12th grade**

Though our partnerships with Albany State University and Albany Technical College, eligible 4C Academy students may enroll in college courses. Earned credits may be utilized for both high school and college transcripts.
